berenn seating collection is a comfortable answer to the many needs of the executive rooms, both operative and collective, by offering different solutions characterized by innovative comfort, ergonomics, wellness, design and materials.

the chairs and sofas produced by berenn are very different from one another. aesthetics, beauty, resistance and versatility of use are the adjectives which better describe our seating collection where quality and functionality have been the first steps of our product designs.

office facilities and contract furnishing are the market segments embraced by berenn ranges. the product families allow individual interior concepts that contribute to the corporate identity of a business.

innovative designs and quality make berenn a distinguished and reliable partner for all those involved in planning office and contract furnishing.

our products are designed in such a way that they can be customized to meet special customer requirements. even in the case of large-scale orders, we are able to develop and implement special solutions quickly and efficiently. our customers' requirements and wishes are, in fact, a constant source of valuable ideas for developing new products.

some planning projects simply cannot be realized using serial products. for this very purpose, berenn offers a comprehensive service to support you in planning such projects.

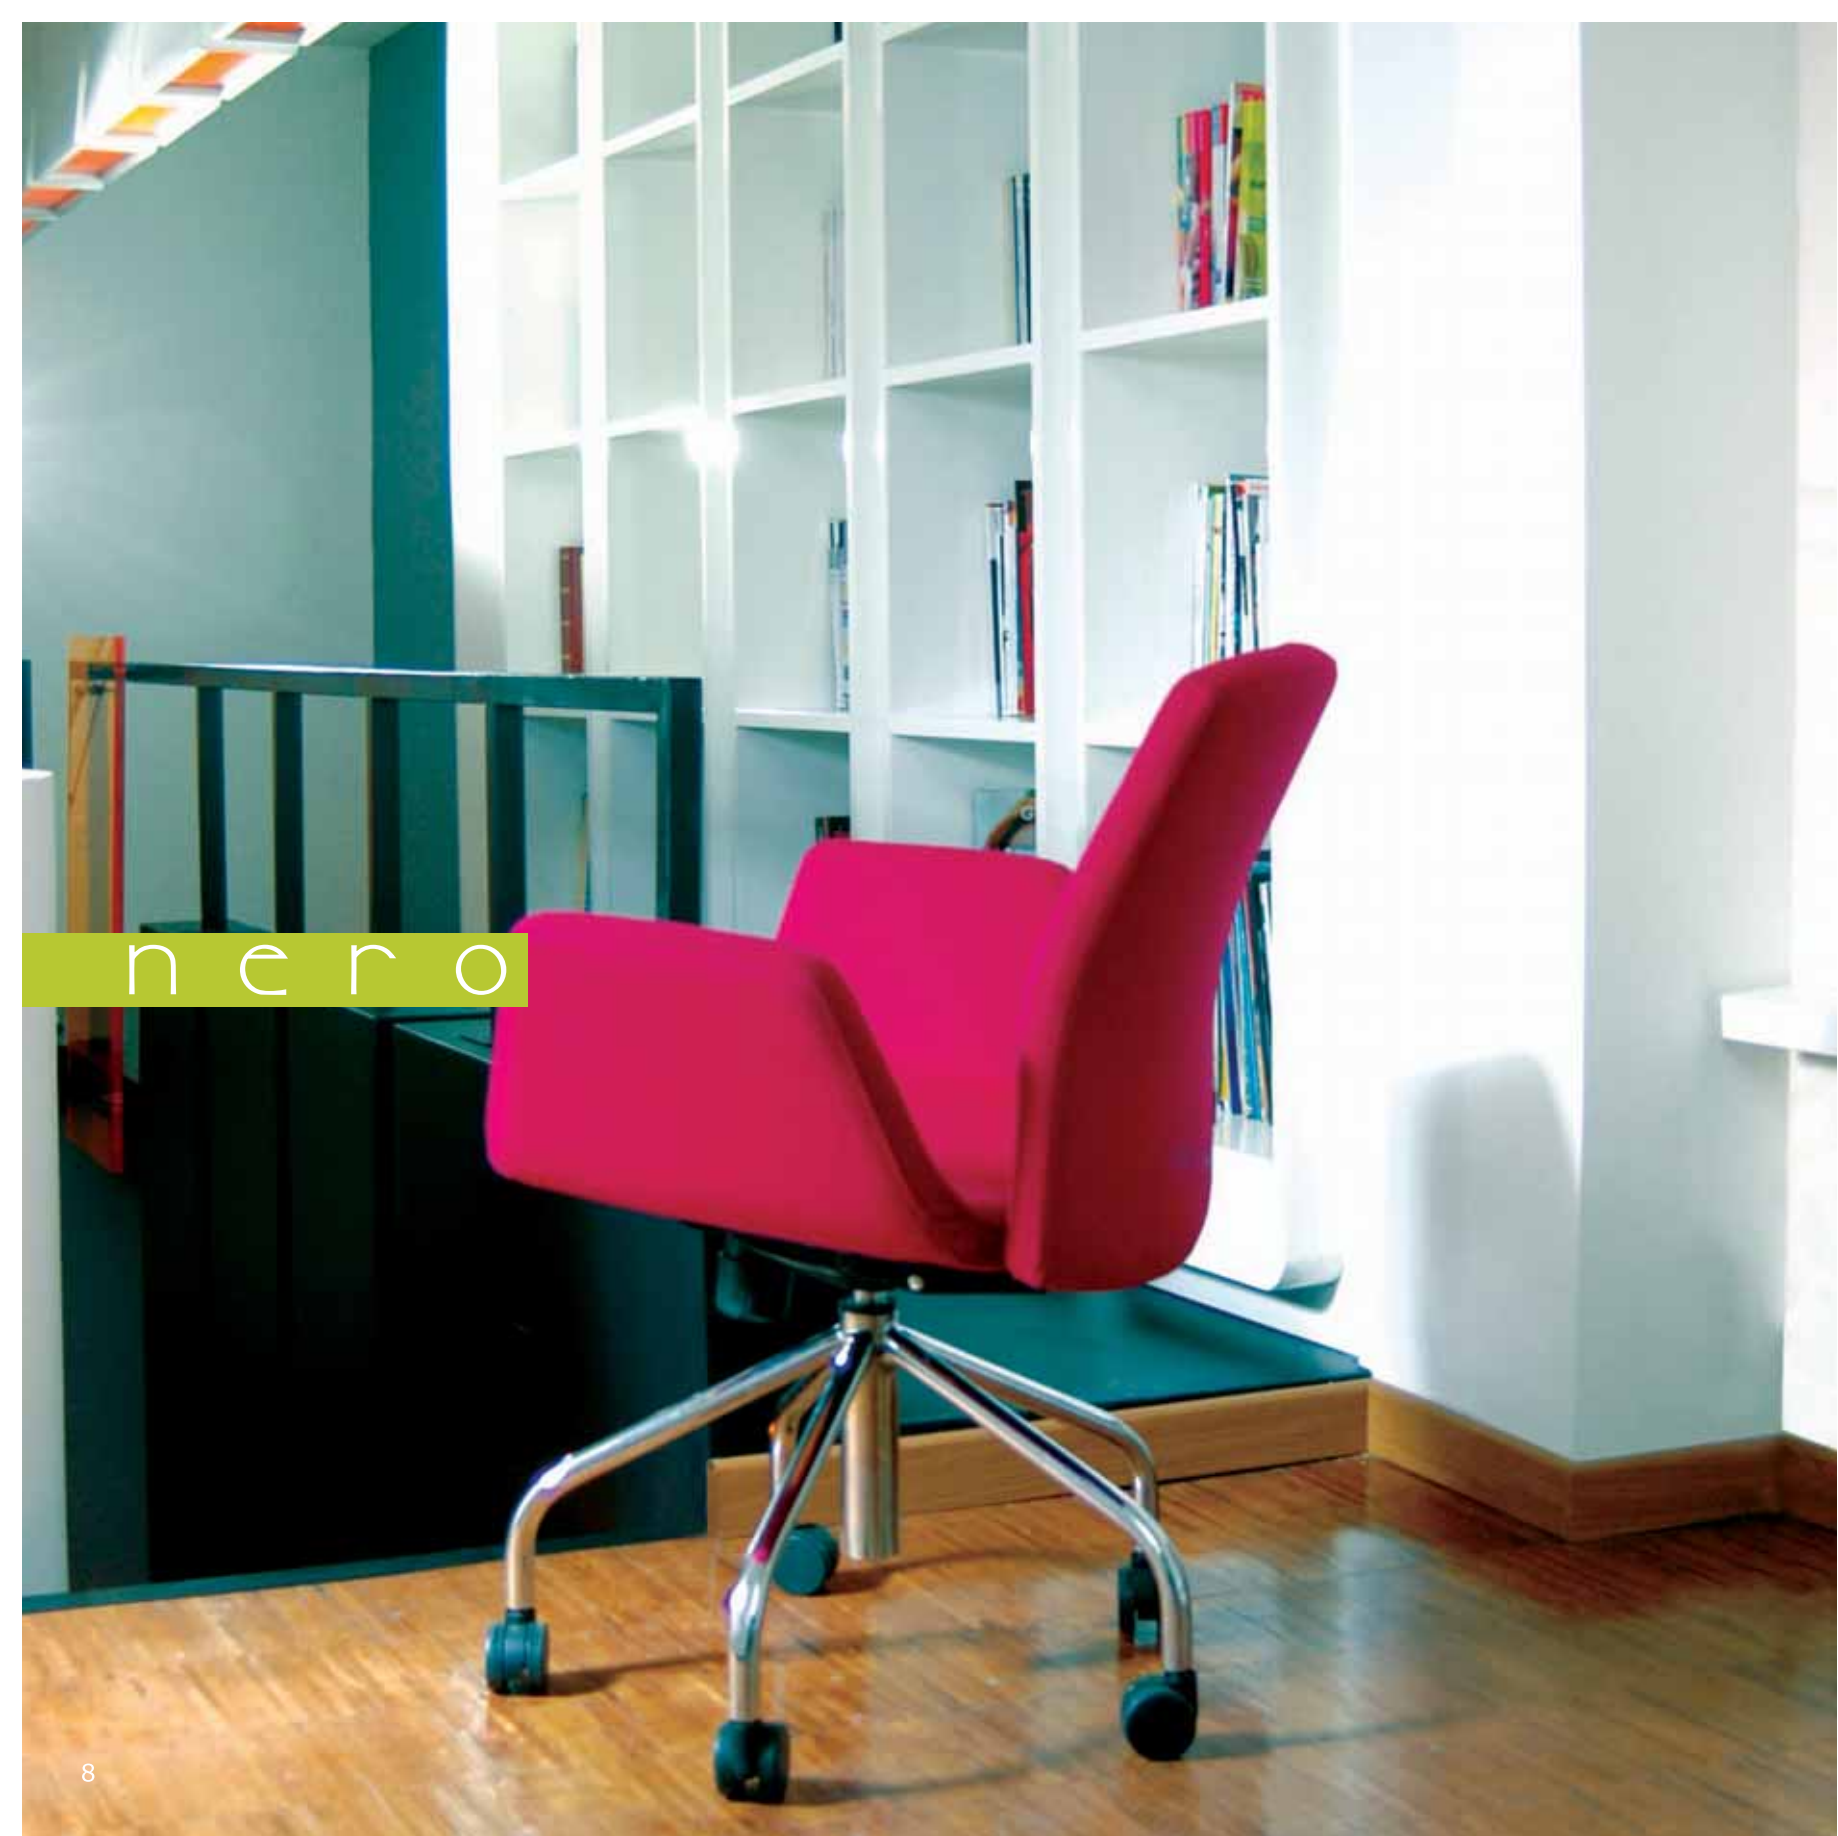

# nero

timelessly modern: its significant contours make it an icon of minimalism. nero office chair collection spreads its simple, half-open petals around the sitter, inviting and warming at the same time.

with its enveloping design, nero is suitable for domestic or contract use. the seat is available in the fixed version and in the swiveling version where the back adapts to the shape of the back to provide fully personalized comfort thanks to its synchron mechanism.

n ā n o

nano, wants to be seen. clean lines, little bulk, decisive design in a minimalist way. this easy chair is comfortable so pleasing to be seated. comfortably upholstered chair is perfect for relaxing.

n ā n o

with its elegantly rounded shell on two different types of chromed bases, Nano is a luxurious and stylish design that proving that true design is timeless.

m o d ā

an invitation to sit down; reduced to the simplest expression. this object evolves in the middle of a space as a playful and simple seating element which distinguishes itself in both color and material.

m o d a

basic cubic and circular shapes blend with almost any architectural environment. you can therefore use Moda for highly versatile applications. not only for waiting lounges but also for staff resting areas, moda provides comfortable breaks.

o n d a

onda is one of the best choices for receiving visitors, informal talks and for a power nap in between. special color choices, matching the design, gives more strength to its clean lines.

# aura

what a sofa collection has to offer? aura offers comfort, elegance and flexibility in a very simple but aesthetic way. this collection is the unique choice for office and contract solutions where waiting lounges, management offices and all seating needs is solved by one single type of design, which is differentiated by the chromed metal arms and colorful upholstery. the modularity is the key for this ability.

ā u r ā

aura is a seating system that can provide an almost endless variety of configurations. berenn, with its high quality craftsmanship and flexibility invite you to force us to make your designs come true.

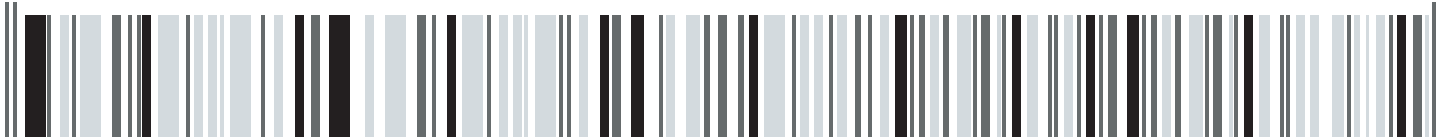

ā U U ā

in the avva collection, the geometrical curved wooden structure makes for a pleasing contrast with the soft, roomy volumes of the seat and back. armchair and sofa: all that's needed to add a touch of personality and clean, functional lines to office and contract settings.

ā ũ ũ ā

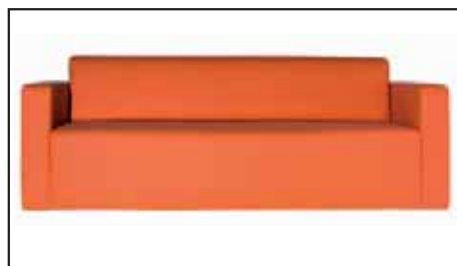

fabric and leather upholstery in a range of colors following the lines of the structure defines not only the sofa but also the atmosphere. our flexible production helps you to furnish your offices with any fabric you may dream. avva gives you this opportunity by its colorful approach. the high density resin foam padding makes avva especially comfortable.

# m i r ā

the design approach for mira has been; the simpler the better. when it comes to elegance, the metal leg and side view of the armrests are the points that enrich the product. the angular back brings the simplicity to elegance with the help of the metal leg which is also structural part of the design.

m i r ā

fixed seat, soft foam cushions with clean lines and fantastic to relax on, and sleeps like a dream. lounge is attractive to look at from all sides and is an elegant centerpiece for any room.
